An additional extortion letter, designated case #15, growing out of the Coornap case was received April 6, 1960, in the Latent Fingerprint Section.

The envelope, Q1, and the letter, Q2, were examined for latent fingerprints. Three latent fingerprints of value for identification purposes were developed on Q1. No latent impressions of value were developed on Q2. The latent fingerprints of value are not identical with any previously developed latent fingerprints in Coornap or related cases, and with the fingerprints of

SUBJECT: UNKNOWN SUBJECT;  
Mr. A. COORS, JR. - VICTIM  
(Case No. 15 in COORNAP,  
Envelope Postmarked Denver,  
Colorado, 3/29/60, 7:00 PM)  
EXTORTION  
(OO: Denver)

333521

Enclosed herewith are the original and one photo-  
stat of the following described evidence, which was received  
in connection with the COORNAP investigation in this office.  
This letter was made available by [redacted]  
[redacted] on 4/1/60. This matter is  
being handled as a separate extortion case in the Denver  
Office.

b6  
b7C

- (1) Typewritten envelope postmarked Denver,  
Colorado, 3/29/60, 7:00 PM, addressed to Mr.  
Adolf Coors Coors Gln. Golden, Colo.
- (2) The accompanying letter, which is typed on a  
white sheet of scrap paper bearing a Jeffer-  
sonian watermark, states as follows:

"We are ready to do business we must talk to  
his wife we will call there Wed. at 2:30  
she must answer the phone. Have 500,000 in  
tens twentys fifties and hundreds ready in  
two separate cases half in each Please do  
not do anything you will be sorry for."

It is requested that the typewriting appearing on  
the envelope and letter be searched through the Anonymous  
Letter File and that the letter and envelope be examined for  
any information which would assist in tracing the source of  
this material. It is also requested the letter and envelope  
be treated for latent fingerprints.

## ADMINISTRATIVE

One copy of this report is being designated for Denver file 9-1042, inasmuch as the FBI Lab advises of similarities between the letter in this case and the letter in that case.

As indicated by title, this violation was committed by unsub subsequent to widespread publicity on disappearance of ADOLPH COORS, III, victim in Coornap case, on February 9, 1960. Investigation of this matter was delayed pending developments in the main Coornap investigation.

Field Office File No.:

DN 9-1047

Bureau File No.:

Title:

UNSUB; Mr. A. COORS, JR., -  
VICTIM (Case #15 in Coornap,  
Envelope Postmarked Denver,  
Colorado, 3/29/60, 7:00 p.m.)

Character:

EXTORTION

Synopsis:

Letter received 4/1/60, from [redacted] No initial investigation conducted. FBI Lab indicates similarities between letter in this case and that in case #14 in Coornap. Paper used in this letter is widely distributed in Colorado and Wyoming in pad form. Envelope not identifiable, and no significant factors regarding paper, envelope, or typing. All logical investigation conducted without identifying unsub.

b6  
b7C

- C -

Details:

This case is predicated upon receipt from [redacted] on April 1, 1960, of the following letter and envelope:

b6  
b7C

1. A typed envelope addressed to Mr. ADOLPH COORS, Coors Glen, Golden, Colorado, bearing postmarks at Denver, Colorado, 3/29/60, 6:00 p.m., and 3/29/60, 7:00 p.m.
2. A letter typed on a white sheet of paper bearing "Jeffersonian" watermark which states as follows: "We are ready to do business we must talk to his wife we will call there Wed at 2.30 she must answer the phone. Have 500,000 in tens hundreds fifties and hundreds ready in two separate cases call

3

37268

4

DN 9-1047

in each Please do not do anything you will be sorry for."

On April 2, 1960, the envelope and letter set out above were sent to the FBI Laboratory. It was also noted that no investigation was conducted originally in this matter, pending further developments in the Coornap case.

On April 6, 1960, the FBI Laboratory reported the following information in which Q1 is identified as the envelope and Q2 as the letter:

"Result of examination:

"It was found that the typewriting on the envelope and note, Q1 and Q2, was prepared on a typewriter equipped with Remington pica type spaced ten letters per inch. There are not enough of the same letters to permit a determination as to whether or not Q1 and Q2 were prepared on the Remington typewriter used to type the envelope and note in case #14 growing out of COORNAP. This typewriting was searched through the Anonymous Letter File, but nothing of significance was found. A photograph has been added.

"The envelope, Q1, is made of white bond paper containing no watermark and measuring 3.68" by 6.50". The paper comprising the note, Q2, is a white bond stock irregularly torn from a larger sheet. It measures 8.38" by roughly 2". It contains the watermark "Jeffersonian Bond." This watermark is most likely the same as the watermark "Jeffersonian" which is listed for the W. H. Kistler Stationery Company, Denver, Colorado."

On the cover letter to above report, the FBI Laboratory advised that some significant similarities were noted between comparable letters in case 15 and case 14, in which the letter was dated March 19, 1960. The note in case 14 is typed entirely in upper-case letters, while the note in case 15 is typed mostly in lower-case letters.

DN 9-1047

On April 7, 1960, the Latent Fingerprint Section advised that no latent impressions of value were developed on Q2; three latent fingerprints of value for identification purposes were developed on Q1. These latent fingerprints were compared, insofar as possible, with all latent fingerprints previously developed in Coornap and related case without effecting identification. These latent fingerprints are not identical with the fingerprints of [REDACTED]

b6  
b7C

FEDERAL BUREAU OF INVESTIGATION  
INTERVIEW REPORT

Date 5/31/60

[redacted] advised that, after examining the paper on the note in this case, this paper is 16-pound bond paper, bearing the watermark "Jeffersonian," which watermark is registered to the Kistler's Stationery Company. [redacted] stated that about three years ago Kistler's sold its wholesale stationery department to the Carpenter Paper Company in Denver, and Carpenter assumed the Jeffersonian watermark for its productions. [redacted] stated that the Jeffersonian watermark is still used by Kistler's for letterhead paper; however, Kistler's Jeffersonian bond is 50% rag content, which is so set forth immediately under the watermark on the paper. He said that Carpenter Paper Company, however, has Jeffersonian bond with only 25% rag content.

b6  
b7C

[redacted] said that, from examination of the scrap of paper on which the letter in this case is written, he would say that this paper came from a pad of Jeffersonian bond, which is put out by the Carpenter Paper Company and which is widely distributed throughout Colorado and Wyoming through drug stores, grocery stores, and variety stores. He said that his reasons for coming to this conclusion are that the paper does not bear the 50% rag content mark under the Jeffersonian watermark, and also the paper does not measure a full 8 1/2" width, which would indicate that it was not letterhead-type paper but was bound in pad form. [redacted] advised that there is no way at all of telling from the watermark when the paper was produced, and he can only state that the stock of 16-pound Jeffersonian bond paper is depleted at the Kistler Stationery Company and is not being replenished. He said he can be certain that the paper did not originate through the Kistler Stationery Company.

by Special Agent [redacted]

/lvw

FEDERAL BUREAU OF INVESTIGATION  
INTERVIEW REPORTDate 6/1/60

[redacted] advised, after examining the paper on which the note in this case was written, that it is his opinion that this is 16-pound Jeffersonian bond distributed by the Carpenter Paper Company in pad form. He said that the distribution of this paper is wide spread throughout the states of Colorado and Wyoming through outlets in drug, grocery, and variety stores.

b6  
b7C

[redacted] stated that Jeffersonian bond paper is made by the Gilbert Paper Company in Wisconsin and is then sent by Gilbert Paper to the American Pad and Paper Company, Holyoke, Massachusetts, where it is made into pads. He advised that there is, to his knowledge, no characteristic in the paper or watermark relating to the time manufactured or the distribution outlet used.

[redacted] /lvw

9-1047-87265-14

FEDERAL BUREAU OF INVESTIGATION  
INTERVIEW REPORTDate 6/1/60

[redacted] U. S. Post Office, Denver, Colorado, advised that the envelope in which the letter in this case was sent bears two cancellation stamps for the following reasons:

b6  
b7C

He stated the first stamp is dated March 29, 1960, and bears the time as 6:00 p.m. This date stamp is on the bottom of the envelope and apparently did not cancel the stamp. He said this was caught and sent back for re-cancellation, at which time it was canceled on March 29, 1960, at 7:00 p.m., which cancellation canceled the stamp. He stated that the small numbers to the left of the cancellation stamp, bearing the number 1 on the 6:00 p.m. cancellation and the number 3 on the 7:00 p.m. cancellation, have no significance other than that is the number of the cancellation machine. He said all mail is canceled at the Wynkoop Annex of the post office and that the cancellation stamp will have absolutely no bearing as to the source by letter box of this particular piece of mail.
